3600 Warranty Replacement Parts

In an April 11, 2000 Fleck Flash, we stated that the 3600 control valve would be phased out over the next several months, and that we would take orders through June 2000 with shipments occurring before the end of July 2000. Again on June 15, 2000, this was reiterated in a Fleck Flash.

Additionally, the Fleck Flash dated September 7, 2000 communicated a sale of 3600 control valve parts at half price until October 1, 2000. These parts will be scraped after October 1, 2000.

The list of parts on the backside that have a (*) are exclusive to the 3600 control valve. These are parts; we will stock for three years for warranty replacement. The parts that do not have an (*) are for reference only and are used on other control valves.

As always, thank you for using Fleck controls.

Sincerely,
Pentair Water Treatment, Inc.

Jay Runkle
