3600 Obsolete Parts Sale

Following our Fleck Flash communication dated September 7, 2000, we have reviewed and refined our list of obsolete parts. We have decided to send out a revised list of parts for your reference and clarification. All obsolete parts of the 3600 control valve (see attached 3600 Obsolete Parts List) will be available at half price until April 30, 2001. The parts are available only while supplies last and will be scrapped after April 30.

3600 Service Repair Parts

Per our Performance Bulletin #357 for maintenance and service repair purposes, we have identified an updated list of 3600 service repair parts. (see attached 3600 Service Repair Parts). Items on this list that have an (*) are exclusive to the 3600 control valve and will be available for 3 years. The parts that do not have an (*) will be available beyond the 3 year period because they are used on other control valves.

As always, thank you for using Fleck controls.

Sincerely,
Pentair Water Treatment

Jay Runkle
