Inactive Parts Obsolescence

In an effort to reduce inactive inventory we will be obsoleting the following parts August 24, 2001. The parts listed have had no sales activity for two years and are therefore deemed inactive. These items may only be ordered as spare parts until August 24, 2001 or until the inventory has been used up, whichever is first.

As always, thank you for using Fleck controls.

Sincerely,
Pentair Water Treatment, Inc.

Jay Runkle
Technical Product Support
