## New 559PE Chloramine Resistant Material Replaces the 17772 Silicone Seal

Effective immediately we will be changing the material of our Chloramine-resistant seals for the 4650, 5600, 6600, 6700, 9000, and ProFloSE valves from Silicone to a 559PE EPDM material. Silicone will no longer be available as an option on these valves or for sale in seal and spacer kits.

The 559PE material has three times the Chloramine resistance of our current 560CD with improved molding capabilities over Silicone. The new 559PE EPDM seal will be Black in color with a Green dot opposed to the Silicone seals, which are Orange.

### New part numbers are as follows:

<b>40628</b>	Seal, 559PE	<i>Replaces</i>	17772	Seal, 5600 Silicone
<b>60125-20</b>	Seal & Spacer Kit, 5600/9000 Top, 559PE	<i>Replaces</i>	60125-10	Seal & Spacer Kit, 5600/9000 Top, Silicone
<b>60421-20</b>	Seal & Spacer Kit, 9000 Lower, 559PE	<i>Replaces</i>	60421-10	Seal & Spacer Kit, 9000 Lower, Silicone

As always, thank you for using Fleck controls.

Sincerely,  
Pentair Water Treatment, Inc.
