December 2006

## Cam Changes on 9000/9100/9500 Valves

Effective beginning in December as inventory depletes, part number 15132 (Cam, Triple), will become obsolete. Part number 17331 (Cam, 9500) will be used for all 9000's, 9100's, and 9500's. Part number 17765 (Cam Assy, Aux Switch, 9500) will be used when an auxiliary switch is used on all 9000's, 9100's, and 9500's.

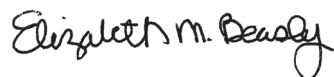

The 60320-09 auxiliary switch kit (Switch Assy, 9000/9100, Black Triple Cam) can only be used if the valve has the black cam (part number 15132) or a white/black cam (part number 17765). The 60320-10 auxiliary switch kit (Switch Assy, 9000/9100/9500, White Triple Cam) will include the 17765 cam and must be ordered if the valve has the white cam (part number 17331). (Please reference the chart below)

Part No.	Description	Cam Included in Kit?	Current Cam on Valve
60320-09	Switch Assy, 9000/9100, Black Triple Cam	N/A	15132 (Black) or 17765 (White/Black)
60320-10	Switch Assy, 9000/9100/9500, White Triple Cam	Yes (17765, White/Black)	17331 (White)

As always, thank you for using Fleck Controls.

Sincerely,  
Pentair Water, Inc.

Elizabeth Beasley, Technical Communications
