February 2008

All-White Floats for Cold Water Use

Beginning in March of 2008 as a running change as inventory depletes, all of the floats for cold water will be white. The weight of the float when filled with sand is 8 ounces. The new white floats are retrofitable on older systems. This replaces the red/white and blue/white combination floats. The floats for hot water applications are not changing, and will remain the teal color. The descriptions of the assemblies will change to white as the color.

Any previous part numbers that began with 10700 or 11154 will be replaced with 10700W. 60026-30 will be replaced with 60028-30.

Part No.	Description
60028-10	Float Assy, 2300, 10", White
60028-15.5	Float Assy, 2300, 15.5", White
60028-17	Float Assy, 2300, 17", White
60028-22	Float Assy, 2300, 22", White
60028-25	Float Assy, 2300, 25", White
60028-28	Float Assy, 2300, 28", White
60028-30	Float Assy, 2300, 30", White
60067-01	Safety Brine Valve/Float Assy, 2300, FFS, White
60067-02	Safety Brine Valve/Float Assy, 2300, FFA, White

Thank you, we appreciate your continued business.
