News Release

Fleck® Introduces 3200NXT Controller

BROOKFIELD, WI – April 28, 2008 – Fleck will launch the latest in its line of advanced Commercial Controllers, the 3200NXT, in June 2008.

The new 3200NXT Controller features advanced electronics, user-friendly programming interface, enhanced 2x16 full-text backlit display, detailed readouts, and capacitor power backup. The 3200NXT is available on Fleck model 2750, 2850s, 2900s, 3150 and 3900 Control Valves. "The new 3200NXT Controller represents the first consolidated iteration of Fleck's electronic controllers around a single, easy-to-use platform. This single platform will better enable Pentair to make rapid design enhancements and product updates, improving our ability to quickly respond to a broad range of customer requirements," per Darnell Wesson, Pentair Water's Product Manager, Valve Systems.

About Pentair Water

Pentair Water is a global leader in providing innovative products and systems used worldwide in the movement, treatment, storage and enjoyment of water. The Water Treatment group (www.pentairwatertreatment.com) of Pentair Water is known for manufacturing and marketing FLECK® control valves, STRUCTURAL™ and WellMate™ pressure vessels, CodeLine™ membrane housings and PENTEK® filter housings, cartridges, and drinking water systems.
