Subject: Annex G, NSF/ANSI 61-California AB 1953

Dear Valued Customer:

Recently we have received requests from customers asking for information on our products and the California Lead Initiative. As you may know, on January 1, 2010 legislation will go into effect in California limiting the lead content in plumbing fittings or fixtures intended to convey or dispense water for human consumption, California AB 1953. To address this initiative an American National Standard, known as Annex G, NSF/ANSI 61, was developed to determine product compliance with the 0.25% maximum weighted average lead content.

Over the past year we have worked closely with our supply partners and certification agency to bring our customers the highest quality product possible in compliance with this initiative. Currently Pentair Residential Filtration, through the Water Quality Association ("WQA"), has certified a significant portion of its multi-port valves to Annex G, NSF/ANSI 61 as tested by the WQA Gold Seal program. For a listing of certified products please visit www.wqa.org.*

The following products have been certified to Annex G, NSF/ANSI 61 as of the date of this letter:

Fleck Residential (also NSF 44 certified)
2510, ProFloSXT (5000), 5600, 5600SXT, 6700XTR, 7000SXT, 9000, 9100

Fleck Commercial (also NSF 61 certified)
2750, 2850, 2850S, 2900S, 3150, 3900, 9500

The following products are in the process of being certified to Annex G, NSF/ANSI 61:

Autotrol Residential Valve certification to Annex G, NSF/ANSI 61 will be completed prior to the January 1, 2010 deadline. (also NSF 44)
255, 268, 269, Performa

For additional details please contact your Pentair Residential Filtration representative. We appreciate your business and look forward to serving your needs in the future.

Sincerely,

A handwritten signature in black ink, appearing to read "Darnell Wesson", with a long, sweeping flourish extending to the right.

Darnell Wesson, Product Manager

*Please note the WQA website listing of certified products may not reflect recently issued certifications.
